About Us

JiuYuHub is a Nanjing-based B2B supplier specializing in **process instruments, water quality analyzers and fluid control components** for industrial customers in Southeast Asia.

Founded in 2026, we have built a portfolio of **195+ models across 32 categories and 3 product lines**, sourced from three certified Chinese manufacturers and delivered with a **24-hour response commitment** on every inquiry.

Why Choose JiuYuHub

Transparent Sourcing

You pay the factory price. Our income comes from the export tax rebate, not a markup on your equipment.

Full Product Range

195+ models across 3 trusted partner brands — measurement, analysis and fluid control under one supplier.

24-Hour Response

Inquiry-to-quote within one business day. Engineers (not sales scripts) answer your technical questions.

SEA-Adapted

Products configured for tropical industrial environments, with technical support across time zones.

Product Lines

Process Measurement

Electromagnetic / vortex / thermal mass / differential pressure / Coriolis flowmeters; pressure & level transmitters.

Water Quality Analysis

UV-Vis spectrophotometers, multi-parameter all-in-one analyzers, portable meters, online monitors (pH/ORP/DO/CON/Turbidity/SS).

Fluid Control

Industrial syringe pumps, peristaltic pumps, multi-channel switching valves, pump heads, PEEK/PTFE fittings.

Target Markets

Indonesia, Vietnam, Singapore, Malaysia, Thailand. Full export documentation & logistics coordination.

Partnership Models

Model 1 — Transparent Sourcing (Recommended)

We earn only from the export tax rebate. The price you pay is the factory price — no equipment markup. We handle sourcing, quality control, export documentation and logistics. Best for buyers who want the best factory price with full-process service.

Model 2 — Export Agency (Fixed Fee)

We charge a fixed service fee and only handle the compliance workflow — funds receipt, customs declaration, tax rebate. Best for buyers who already have suppliers and only need export paperwork processed.

Quality & Logistics

Source Inspection

ISO-grade incoming inspection at supplier facilities before shipment to your warehouse.

Export Documentation

Full CIQ / COO / form-A / certificate of origin / commercial invoice / packing list.

Freight Coordination

Sea & air freight consolidation, door-to-door options, customs clearance support.

After-Sales

Spare parts stock, technical support, warranty handling with manufacturer support.

Ready to discuss your instrumentation needs?

Send us your application, target models and quantities — we reply within 24 hours with a Jiuyuhub quotation and lead time. WhatsApp +86 15651929108 · zhangyuancan@jiuyuhub.com
