

JiuYuHub

Industrial Environmental Instruments Comprehensive Product Overview

Nanjing Jiuyuhub Environmental Technology Co., Ltd.

Address: Jiangbei New District, Nanjing | Web: www.jiuyuhub.com

Date: July 2026

Table of Contents

- Part 1** Premium Water Quality Instruments 57 Models
- Part 2** Process Measurement Instruments 32 Models
- Part 3** Precision Fluid Control Components 106 Models
- Part 4** Service & Commitment — Models

Part 1 : Premium Water Quality Instruments

57 Products

01 Visible Spectrophotometer (2 Models)

► DP9600

UV-Vis spectrophotometer, 190-1100nm full wavelength range, suitable for biochemistry, pharmaceutical analysis, and environmental monitoring.

Key Specifications

Parameter	Specification
Wavelength Range	190~1100nm
Spectrum Bandwidth	2nm
Light Source	D2+Tungsten
Absorbance	0~4A
Display	7-inch Touchscreen
Output	USB/RS-232
Power	AC 220V/100W
Dimensions	480×460×210mm

► DP8600

Visible spectrophotometer, 320-1100nm range, suitable for routine water quality testing, education, and industrial QC.

Key Specifications

Parameter	Specification
Wavelength Range	320~1100nm
Spectrum Bandwidth	2nm
Light Source	Tungsten
Absorbance	0~4A
Display	7-inch Touchscreen

02 Multi-parameter Water Quality Analyzer (All-in-one) (3 Models)

► MP5000

Multi-parameter water quality analyzer (basic), measures both electrochemical and photometric parameters for WWTP and environmental inspection.

Key Specifications

Parameter	Specification
Display	7-inch Touchscreen
Light Source	LED
Absorbance	0~3A
Digestor	Dual-temp 8-well, RT~200°C
Electrochemical	pH/ORP/Conductivity/DO/COD/Turbidity

Protection	IP67
Power	24V Li-ion+Type-C
Dimensions	480×215×218mm
Weight	~11kg

► MP5200

Multi-parameter analyzer (enhanced), supports more photometric parameters (heavy metals, chlorine, hardness), for third-party labs and universities.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► MP5300

Multi-parameter analyzer (low-range COD), supports 0.7-40mg/L COD, ideal for drinking water and surface water analysis.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

03 Water Quality Analyzer (11 Models)

► MP230Pro-58

Portable multi-parameter water quality analyzer, 50+ parameters including COD, ammonia, TP, TN, heavy metals, disinfectants.

Key Specifications

Parameter	Specification
Display	4.3-inch Touchscreen
Light Source	Long-life LED
Absorbance	0~3A
Optical Stability	≤±0.003Abs/20min
Battery	8000mAh Li-ion
Data	Type-C, optional wireless
Protection	IP67
Dimensions	210×95×52mm
Weight	550g

► MP230Pro-T

Portable 6-parameter water quality analyzer (COD, NH3-N, TP, TN, NO3-N, permanganate), optimized for routine wastewater testing.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► MP240

Disinfectant-specific analyzer for residual chlorine, total chlorine, ClO2, ozone, H2O2 (5 parameters).

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► MP230Pro-HM

Heavy metal analyzer for 11 heavy metal parameters (Zr, Cu, Fe, Cr, Ni, Co, Al, Zn, Cd, etc.).

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► MP230Pro-DT

Pool water analyzer with 14 parameters covering disinfectants, urea, hardness, phenol, color, designed for pools and CDC.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► MP200

Portable water quality analyzer with 9 key parameters (chlorine, nitrite, ClO₂, ozone, NH₃-N), AAA battery powered.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► MP6800

Modular handheld water quality analyzer with interchangeable colorimetric modules and electrochemical electrode expansion, 70+ parameters.

Key Specifications

Parameter	Specification
Module A	420/520/560/610nm
Module B	350/450/810nm
Light Source	LED
Absorbance	0~3A
Electrochemical	Supports pH/Conductivity/DO digital electrodes
Display	3.2-inch Color LCD
Battery	8000mAh Li-ion
Protection	IP65
Weight	600g

► MP218-C

COD-specific portable water quality analyzer, simple operation, cost-effective.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► TM100

Portable turbidity meter, ISO7027 nephelometric method, for various water sample field/lab testing.

Key Specifications

Parameter	Specification
Range	0~1100 NTU
Accuracy	±2%~±3%
Light Source	Infrared LED
Detector	Silicon Photocell
Power	3×AA Batteries

Dimensions	180×85×70mm
Weight	300g

► FCL201/FCL202

Portable free/total chlorine analyzer for drinking water and pool water testing.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► Disinfectant Residue Analyzer Series

Disinfectant residue analyzer series covering chlorine, ClO₂, ozone, H₂O₂, available chlorine, etc.

Applications: Residual disinfectant monitoring in drinking water, swimming pools, and industrial disinfection processes.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

04 Gas Analyzer (3 Models)

► DOZ201

Portable ozone colorimeter, DPD method.

Key Specifications

Parameter	Specification
Range	0~2.50 mg/L
Wavelength	525nm
Accuracy	≤±5%
Power	AAA Battery
Dimensions	159×68×35mm
Weight	~220g

► CLO209

High-range ClO₂ colorimeter, 5-999mg/L for industrial disinfection.

Key Specifications

Parameter	Specification
Range	5~999 mg/L
Wavelength	445nm
Accuracy	≤±5%

► CLO201

Portable ClO₂ colorimeter, DPD method.

Key Specifications

Parameter	Specification
Range	0~5.00 mg/L
Wavelength	525nm
Accuracy	≤±5%

05 Digestion Instrument (2 Models)

► CR220-10/20

COD thermostatic digestion instrument, 10/20 wells, for use with COD analyzers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► CR219-4

COD thermostatic digestion instrument, 4 wells for small batches.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

06 Pen-type / Piercing / Portable / Benchtop (5 Models)

► HE2000

Dual-channel electrochemical analyzer for pH/ORP/Conductivity/TDS/Salinity/DO/Turbidity/COD/TOC.

Key Specifications

Parameter	Specification
Display	5-inch Touchscreen
Battery	8000mAh Li-ion
Protection	IP67
Dimensions	172×95×32mm
Weight	430g

► Pen-type Water Quality Tester (PH100/ORP100/CON100/DO100/FCL/DOZ)

Pen-type Water Quality Tester (PH100/ORP100/CON100/DO100/FCL/DOZ) - Pen-type / Piercing / Portable / Benchtop. For detailed specifications, please contact Jiuyuhub sales engineers.

Applications: Field rapid testing, single-parameter measurement for pH/ORP/Conductivity/DO/Chlorine/Ozone.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► Piercing Test Pen (ORP100P/PH100P)

Piercing Test Pen (ORP100P/PH100P) - Pen-type / Piercing / Portable / Benchtop. For detailed specifications, please contact Jiuyuhub sales engineers.

Applications: Direct piercing measurement of pH/ORP in solid and semi-solid samples (meat, fruits, vegetables).

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► Portable Water Quality Tester Series

Portable Water Quality Tester Series - Pen-type / Piercing / Portable / Benchtop. For detailed specifications, please contact Jiuyuhub sales engineers.

Applications: Multi-parameter handheld design, IP65 protection, suitable for field and rapid on-site testing.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► **Benchtop Water Quality Tester Series**

Benchtop Water Quality Tester Series - Pen-type / Piercing / Portable / Benchtop. For detailed specifications, please contact Jiuyuhub sales engineers.

Applications: Benchtop laboratory use, large display, high-precision multi-parameter simultaneous measurement.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

07 Industrial Online Monitoring (11 Models)

► **Industrial Online DO Monitor (DO3000M/DO6000M)**

Industrial online DO monitor series, DO3000M (basic), DO6000M (high precision), 4-20mA/RS485 output.

Applications: Continuous DO monitoring in wastewater aeration tanks, aquaculture, and industrial processes with 4-20mA/RS485 output.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► **Industrial Online Fluorescent DO Monitor (DO6000Y)**

Fluorescent DO monitor, membrane-free, low maintenance, for wastewater aeration and aquaculture.

Applications: Membrane-free fluorescent DO monitoring for harsh conditions including wastewater aeration and aquaculture.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► **Industrial Online SS/Sludge Concentration Meter (MS6000SG)**

Industrial online suspended solids/sludge concentration meter, 90° scattering method for WWTP.

Applications: Sludge concentration monitoring in WWTP using 90-degree scattering method.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► **Industrial Online Low-range Turbidity Meter, Flow-through (NT6000L)**

Industrial online low-range turbidity meter, flow-through type for drinking water and RO inlet.

Applications: Low-range turbidity monitoring for drinking water and RO system inlet, flow-through installation.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► **Industrial Online Turbidity Monitor (NT6000G)**

Industrial online turbidity monitor, submersion type for wastewater and process water.

Applications: Submersion-type turbidity monitoring for wastewater discharge and process water.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► **Industrial Online Conductivity/Salinity Meter (CON6512)**

Industrial online conductivity/salinity meter for aquaculture and desalination.

Applications: Simultaneous conductivity and salinity monitoring for aquaculture and desalination.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► **Industrial Online Acid/Base/Salt Concentration Monitor (SJG3000C)**

Industrial online acid/alkali/salt concentration monitor for chemical processes.

Applications: Real-time acid/alkali/salt concentration monitoring for chemical processes.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► **Industrial Online Conductivity Monitor (CON6000C)**

Industrial online conductivity monitor, high precision for power and semiconductor ultra-pure water.

Applications: High-precision conductivity monitoring for power generation and semiconductor ultra-pure water.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► **Industrial Online Conductivity Monitor (CON3000C)**

Industrial online conductivity monitor, standard model for general water treatment.

Applications: Standard conductivity monitoring for general industrial water treatment.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► **Industrial Online pH/ORP Monitor (PH6000C)**

Industrial online pH/ORP monitor, high precision for power, chemical, and pharmaceutical processes.

Applications: High-precision pH/ORP monitoring for power, chemical, and pharmaceutical processes.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► **Industrial Online pH/ORP Monitor (PH3000C)**

Industrial online pH/ORP monitor, standard model for general water treatment.

Applications: Standard pH/ORP monitoring for general industrial water treatment.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

08 Electrodes / Sensors (9 Models)

► **Organic Solvent Electrode**

Organic Solvent Electrode - Electrodes / Sensors. For detailed specifications, please contact Jiuyuhub sales engineers.

Applications: pH measurement in organic phase media.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► **Micro Sample Electrode**

Micro Sample Electrode - Electrodes / Sensors. For detailed specifications, please contact Jiuyuhub sales engineers.

Applications: Micro-volume sample pH measurement.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► **Chlorophyll Sensor (HWS6208)**

Chlorophyll Sensor (HWS6208) - Electrodes / Sensors. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► **Blue-green Algae Sensor (HWS6209)**

Blue-green Algae Sensor (HWS6209) - Electrodes / Sensors. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► **Portable Piercing pH/ORP Electrode (HWS1010-SK/HWS2010-SK)**

Portable Piercing pH/ORP Electrode (HWS1010-SK/HWS2010-SK) - Electrodes / Sensors. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► **Polarographic DO Electrode (HWS4051/HWS4052, Rugged)**

Polarographic DO Electrode (HWS4051/HWS4052, Rugged) - Electrodes / Sensors. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► **Conductivity Electrode Series**

Conductivity Electrode Series - Electrodes / Sensors. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► **Lab/Portable pH Electrode (HWS1010/HWS1020/HWS1030/HWS1050)**

Lab/Portable pH Electrode (HWS1010/HWS1020/HWS1030/HWS1050) - Electrodes / Sensors. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► **Combined ORP Electrode (HWS2010)**

Combined ORP Electrode (HWS2010) - Electrodes / Sensors. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

09 Other Equipment (3 Models)

► **Portable IR Oil-in-Water Analyzer (OIL1500)**

Portable IR Oil-in-Water Analyzer (OIL1500) - Other Equipment. For detailed specifications, please contact Jiuyuhub sales engineers.

Applications: Field emergency monitoring of oil content in water.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► **IR Oil-in-Water Analyzer (OIL5000)**

IR Oil-in-Water Analyzer (OIL5000) - Other Equipment. For detailed specifications, please contact Jiuyuhub sales engineers.

Applications: Laboratory high-precision measurement of mineral, animal/vegetable, and total oil in water.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► **BOD Analyzer (BOD206)**

BOD Analyzer (BOD206) - Other Equipment. For detailed specifications, please contact Jiuyuhub sales engineers.

Applications: Five-day BOD measurement for wastewater.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

10 Pre-dosed Reagents (8 Models)

► **Ammonia Nitrogen Pre-dosed Reagent**

Ammonia Nitrogen Pre-dosed Reagent - Pre-dosed Reagents. For detailed specifications, please contact Jiuyuhub sales engineers.

Applications: Pre-dosed ammonia nitrogen reagent, Nessler method, 0.02-50mg/L range.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► **Permanganate Index Pre-dosed Reagent**

Permanganate Index Pre-dosed Reagent - Pre-dosed Reagents. For detailed specifications, please contact Jiuyuhub sales engineers.

Applications: Pre-dosed permanganate index reagent, acidic KMnO_4 method.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► Industrial Online Free Chlorine Reagent

Industrial Online Free Chlorine Reagent - Pre-dosed Reagents. For detailed specifications, please contact Jiuyuhub sales engineers.

Applications: Pre-dosed reagent for industrial online free chlorine monitoring, DPD method.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► Disinfectant, Metal, Industrial & Other Pre-dosed Reagents (Category Description)

Disinfectant, Metal, Industrial & Other Pre-dosed Reagents (Category Description) - Pre-dosed Reagents. For detailed specifications, please contact Jiuyuhub sales engineers.

Applications: Comprehensive pre-dosed reagent series covering disinfectants, metals, industrial parameters and more.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► Total Nitrogen Pre-dosed Reagent

Total Nitrogen Pre-dosed Reagent - Pre-dosed Reagents. For detailed specifications, please contact Jiuyuhub sales engineers.

Applications: Pre-dosed total nitrogen reagent, alkaline persulfate digestion UV method, 0-150mg/L.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► Total Phosphorus Pre-dosed Reagent

Total Phosphorus Pre-dosed Reagent - Pre-dosed Reagents. For detailed specifications, please contact Jiuyuhub sales engineers.

Applications: Pre-dosed total phosphorus reagent, ammonium molybdate method, 0-100mg/L.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► COD Pre-dosed Reagent

COD Pre-dosed Reagent - Pre-dosed Reagents. For detailed specifications, please contact Jiuyuhub sales engineers.

Applications: Pre-dosed COD reagent, potassium dichromate method, multi-range coverage 10-15000mg/L.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► PAC/PAM Flocculants

PAC/PAM Flocculants - Pre-dosed Reagents. For detailed specifications, please contact Jiuyuhub sales engineers.

Applications: Flocculants for water treatment applications.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

Part 2: Process Measurement Instruments

32 Products

01 Electromagnetic Flowmeter (8 Models)

► SE10A

Economical electromagnetic flowmeter, 10-300mm, 24V DC, for general conductive liquids.

Key Specifications

Parameter	Specification
Diameter	10~300mm
Accuracy	±0.5%
Electrode	316L/Hastelloy B/C
Lining	PTFE/F46/Neoprene
Output	4-20mA/Bluetooth
Communication	HART/Modbus
Protection	IP65/IP67/IP68
Power	24VDC
Structure	Integral Type

► SE11E

High-precision EM flowmeter, 3-2000mm, comprehensive self-diagnostics.

Key Specifications

Parameter	Specification
Diameter	3~2000mm
Accuracy	±0.2%/±0.3%/±0.5%
Electrode	316L/Hastelloy B,C/Ti/Ta/Pt-Ir/WC
Lining	Neoprene/PTFE/F46/PFA
Fluid Temp	-40~200℃
Conductivity	≥1μS/cm
Velocity	0.3~10m/s
Communication	HART/Modbus/Profibus
Protection	IP65/IP67/IP68
Power	220VAC/24VDC

► SE11H

Wear-resistant anti-noise EM flowmeter, designed for slurry with hybrid frequency excitation.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► SE13E

Sanitary EM flowmeter, 10-125mm, clamp/thread connection for food/beverage and pharma.

Key Specifications

Parameter	Specification
Diameter	10~125mm
Accuracy	±0.5%
Lining	F46/PFA
Installation	Clamp/Thread
Structure	Integral/Remote
Protection	IP65/IP67/IP68

► SEB600S

Battery-powered EM water meter, 40-1000mm, 6-year lithium battery, IP68, for municipal water supply.

Key Specifications

Parameter	Specification
Diameter	40~1000mm
Accuracy	±1.0%(>0.5m/s)
Range Ratio	R400/R250
Battery	Lithium, 6-year life
Output	GPRS/NB-IoT/RS485
Protection	IP68

► SE15 Insertion-type EM Flowmeter

Insertion-type EM flowmeter, DN300-DN2000 for large pipes, online plug-in installation.

Applications: Large pipe flow measurement (DN300-DN2000) with online plug-in installation capability.

Key Specifications

Parameter	Specification
Diameter	DN300~DN2000
Accuracy	±0.2%~±0.5%
Battery	Lithium, 3-5 years
Output	GPRS/SMS/RS485
Protection	IP65/IP68

► SE14B Insertion-type EM Flowmeter Series

Insertion-type EM flowmeter, 100-1000mm, cost-effective.

Applications: Cost-effective large pipe flow measurement for municipal water and industrial applications.

Key Specifications

Parameter	Specification
Diameter	100~1000mm
Accuracy	±2.0%

Electrode	316L
Lining	PVDF
Power	220VAC/24VDC
Protection	IP65/IP67/IP68

► SE14C Minimalist Insertion EM Flowmeter

Minimalist insertion EM flowmeter, ultra-thin design for easy installation.

Applications: Simple and fast insertion-type installation for large pipe flow measurement.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

02 Electromagnetic Water Meter (1 Models)

► Electromagnetic Water Meter

Electromagnetic water meter, battery-powered, for urban water supply metering and DMA.

Applications: Urban water supply metering and DMA (District Metering Area) flow monitoring.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

03 Vortex Flowmeter (3 Models)

► SV21 Vortex Flowmeter Series

Vortex flowmeter, DN25-DN500, for liquid/gas/steam measurement.

Applications: Liquid, gas and steam flow measurement in industrial processes.

Key Specifications

Parameter	Specification
Diameter	DN25~DN500
Liquid Accuracy	±1.0%
Gas Accuracy	±1.5%
Temperature	-40~350℃
Power	24VDC/Battery
Communication	HART/Modbus
Protection	IP65/IP68

► SV23 Sanitary Vortex Flowmeter

Sanitary vortex flowmeter, food-grade, for beverage and dairy industries.

Applications: Food-grade flow measurement for beverage and dairy industries.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► SVH Digital Vortex Flowmeter

Digital vortex flowmeter, dual piezo design, 20:1 range ratio.

Applications: High-precision gas and liquid measurement with wide range ratio.

Key Specifications

Parameter	Specification
Liquid Accuracy	±0.75%
Gas Accuracy	±1.0%
Temperature	-40~260℃
Range Ratio	20:1
Communication	HART
Protection	IP65/IP67/IP68

04 Electromagnetic Heat Meter (1 Models)

► SE12E

EM heat meter with Pt1000, for district heating/cooling metering.

Key Specifications

Parameter	Specification
Diameter	3~2000mm
Accuracy	±0.5%
Modes	Cooling/Heating/Auto
Output	RS485/4-20mA

05 Variable Area (Float) Flowmeter (1 Models)

► SR41 Metal Tube Variable Area Flowmeter

Metal tube variable area flowmeter, 15-100mm, 304/316L/Hastelloy C.

Applications: General-purpose flow measurement for liquids and gases in industrial applications.

Key Specifications

Parameter	Specification
Diameter	15~100mm
Accuracy	Class 1.5/2.5
Range Ratio	20:1
Material	304/316L/Hastelloy C
Communication	HART
Protection	IP67

06 Thermal Mass Flowmeter (2 Models)

► ST51 Thermal Mass Flowmeter (In-line)

Thermal mass flowmeter, in-line, 10-100mm, 100:1 range ratio.

Applications: In-line gas mass flow measurement for industrial and process control.

Key Specifications

Parameter	Specification
Diameter	10~100mm
Accuracy	Reading ±1.0%+FS ±0.5%
Range Ratio	100:1

Response	<0.5s
Temperature	-40~300℃
Communication	HART/Modbus

► ST54 Thermal Mass Flowmeter (Insertion)

Thermal mass flowmeter, insertion type for large pipe gas measurement.

Applications: Insertion-type gas mass flow measurement for large pipes and ducts.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

07 Differential Pressure Flowmeter (5 Models)

► Orifice Plate Flowmeter (SD40)

Standard orifice plate DP flowmeter, simple and reliable, for steam/gas/liquid.

Applications: Steam, gas and liquid flow measurement in power, petrochemical, and industrial applications.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► Balance Flowmeter (SD41)

Multi-hole balance flowmeter, low pressure loss, replaces traditional orifice.

Applications: Multi-hole balance flow measurement with reduced straight pipe requirements.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► V-Cone Flowmeter (SD42)

V-cone DP flowmeter, built-in V-cone for self-conditioning, wide range ratio.

Applications: Self-conditioning flow measurement for dirty, wet, or difficult flow conditions.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► Wedge Flowmeter (SD43)

Wedge flowmeter, DN40-DN600, for high-viscosity and solid-containing media.

Applications: High-viscosity and solid-containing media flow measurement.

Key Specifications

Parameter	Specification
Diameter	DN40~DN600
Liquid Accuracy	±0.5%
Gas Accuracy	±1.0%
Range Ratio	3:1~10:1
Working Pressure	≤16MPa
Fluid Temp	≤500℃

► Annubar Flowmeter (SD45)

Annubar (averaging pitot) flowmeter, insertion type, minimal pressure loss.

Applications: Large pipe flow measurement with minimal pressure loss, insertion-type installation.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

08 Pressure Transmitter (9 Models)

► S3E Electronic Remote Transmitter

Electronic remote transmitter, digital transmission, 32-point calibration.

Applications: Digital remote pressure measurement with 32-point calibration.

Key Specifications

Parameter	Specification
Signal	Digital
Power	24VDC
Output	4-20mA/HART
Protection	IP67

► S3000CD Smart DP Transmitter

Smart DP transmitter, 0-100Pa~2MPa, 0.075% accuracy.

Applications: Differential pressure measurement for flow, level, and filter monitoring.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► S3000CG Smart Gauge Pressure Transmitter

Smart gauge pressure transmitter, 0-0.6kPa~40MPa, 0.075% accuracy.

Applications: Gauge pressure measurement in industrial process applications.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► S3000CA Smart Absolute Pressure Transmitter

Smart absolute pressure transmitter, 0-2kPa~40MPa, 0.075% accuracy.

Applications: Absolute pressure measurement for vacuum and process applications.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► S3000TG Remote Gauge Pressure Transmitter

Remote pressure transmitter (gauge), with capillary remote seal.

Applications: Remote gauge pressure measurement with capillary seal for high-temperature applications.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► S3000TA Remote Absolute Pressure Transmitter

Remote pressure transmitter (absolute), with capillary remote seal.

Applications: Remote absolute pressure measurement with capillary seal.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► S3000L Pressure Transmitter Series

Smart pressure transmitter L-series, wide range, long-term stability.

Applications: General-purpose industrial pressure measurement with wide rangeability.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► S3000H Pressure Transmitter Series

Smart pressure transmitter H-series, high precision and performance.

Applications: High-precision pressure measurement for critical process control.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► 1199 Remote Pressure Transmitter Series

1199 remote pressure transmitter series, sanitary design for pharma and food.

Applications: Sanitary pressure measurement for pharmaceutical and food industry applications.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

09 Intelligent Flow Controller (1 Models)

► SPC200 Intelligent Flow Controller

Smart flow controller with embedded programming, 2×RS485, 6DI/6DO/2 relays.

Applications: Embedded flow control with multi-channel I/O for industrial automation.

Key Specifications

Parameter	Specification
Communication	2×RS485 (Modbus)
I/O	6DI/6DO/2 Relays
Total Accuracy	±0.5%

10 Coriolis Mass Flowmeter (1 Models)

► SG61

Coriolis mass flowmeter, direct mass flow measurement, high accuracy for custody transfer.

Applications: Direct mass flow measurement for custody transfer and critical process control.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

Part 3: Precision Fluid Control Components

106 Products

01 Multi-channel Selector Valve (4 Models)

► Smart SV04M-B Multi-channel Selector Valve

Smart multi-channel selector valve, 6-28 ports, alumina ceramic.

Applications: Water quality online analyzers (COD, NH₃-N), liquid chromatography injection valves, high-throughput gene sequencers.

Key Specifications

Parameter	Specification
Ports	6/8/10/12/16/24/28
Channel Diameter	0.6/1.0/1.2mm
Wetted Material	Alumina Ceramic
Communication	RS232/RS485
Power	DC24V/3A

► SV07M Multi-channel Selector Valve

SV07M Multi-channel Selector Valve - Multi-channel Selector Valve. For detailed specifications, please contact Jiuyuhub sales engineers.

Applications: Enhanced version for demanding applications: water quality analyzers, HPLC autosamplers, biopharma reactors.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► SV07M Large-bore Multi-channel Selector Valve

Large-bore multi-channel selector valve, max 3.0mm channel for high-viscosity/particle media.

Applications: Biopharma fermentation feed, environmental monitoring with sediment, industrial process control for slurries/inks.

Key Specifications

Parameter	Specification
Channel Diameter	1.5/2.0/3.0mm
Max Torque	8N·m
Pressure	Air 0.6MPa/Water 1.0MPa
Weight	~0.85kg

► LV50 Smart Multi-channel Selector Valve

LV50 Smart Multi-channel Selector Valve - Multi-channel Selector Valve. For detailed specifications, please contact Jiuyuhub sales engineers.

Applications: Next-generation smart valve with integrated control for simplified system integration.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

02 Metering Valve (3 Models)

► Smart SV04B-M Multi-channel Metering Valve

Multi-channel metering valve, 6/8 ports, alumina ceramic, accurate dosing.

Applications: Precision micro-dosing in analytical instruments and microfluidic systems.

Key Specifications

Parameter	Specification
Ports	6/8
Channel Diameter	1.2mm
Rotor Slot Volume	5.3~6.5 μ L
Wetted Material	Alumina Ceramic
Pressure	Air 0.6MPa/Water 1.0MPa
Max Torque	4N·m
Weight	~0.44kg

► SV07B-M Metering Valve

SV07B-M Metering Valve - Metering Valve. For detailed specifications, please contact Jiuyuhub sales engineers.

Applications: Enhanced precision dosing for demanding analytical applications.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► SV07B-M Large-bore Metering Valve

SV07B-M Large-bore Metering Valve - Metering Valve. For detailed specifications, please contact Jiuyuhub sales engineers.

Applications: Large-bore precision dosing for high-viscosity or particle-containing liquids.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

03 High Pressure Valve (1 Models)

► Mrv-01BM High Pressure Valve

High pressure valve, alumina ceramic, 1.0MPa air/1.6MPa water.

Applications: High-pressure fluid switching in HPLC and high-pressure analytical systems.

Key Specifications

Parameter	Specification
Wetted Material	Alumina Ceramic
Pressure	Air 0-1.0MPa/Water 0-1.6MPa
Power	DC24V

04 Industrial Syringe Pump (5 Models)**► Smart SY-01B Industrial Syringe Pump**

High-precision micro industrial syringe pump, 30mm stroke, ultra-high resolution for small volume precision handling.

Applications: High-precision micro-volume handling for IVD, environmental analysis (COD, NH₃-N), and drug screening.

Key Specifications

Parameter	Specification
Stroke	30mm
Syringe	25µL~5mL
Accuracy	≤1%
Repeatability	0.3%~0.5%
Linear Speed	0.0025~15mm/s
Min Resolution	0.0025mm/step
Wetted Material	Borosilicate/PTFE/Ceramic
Switch Time	≤640ms
Communication	RS232/RS485/CAN
Power	DC24V/3A
Weight	1.5kg

► SY-03B Syringe Pump

High-speed large-volume syringe pump, 60mm stroke, up to 25mL syringe, max 60mm/s.

Applications: Large-volume high-speed liquid handling for water quality online analysis, pharmaceutical filling, and preparative chromatography.

Key Specifications

Parameter	Specification
Stroke	60mm
Syringe	50µL~25mL
Lead	6mm
Linear Speed	0.01~60mm/s
Switch Time	≤280ms
Pressure	0.7MPa
Weight	2.2kg

► SY-06B Syringe Pump

High-thrust syringe pump, 60mm stroke, 2mm small lead for high-viscosity liquids.

Applications: High-viscosity liquid handling (glycerol, oils) and high-pressure HPLC injection applications.

Key Specifications

Parameter	Specification
Stroke	60mm
Lead	2mm
Linear Speed	0.005~30mm/s
Syringe	50 μ L~10mL
Switch Time	$\leq$ 280ms
Max Ports	Supports T-14/T-16 (14/16-way)
Pressure	0.7MPa

► Smart SY-01C Industrial Syringe Pump

Economical syringe pump, 30mm stroke, ultra-low speed 0.0005mm/s, up to 60000s run time.

Applications: Ultra-slow speed dosing for cell culture, enzyme reactions, and cost-effective general applications.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► SY-03B Parallel Micro Syringe Pump

Parallel multi-channel micro syringe pump for high-throughput screening.

Applications: Multi-channel high-throughput screening and parallel sample preparation.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

05 Vertical Syringe Pump (3 Models)

► SY-08 Vertical Syringe Pump

Vertical syringe pump, 5mL, vertical installation saves space.

Applications: Compact vertical installation for OEM analytical instrument integration.

Key Specifications

Parameter	Specification
Capacity	5mL
Stroke	30mm (12000 steps)
Plunger Force	$\geq$ 100N
Linear Speed	0.017~10mm/s
Accuracy	$\leq$ 1%
Repeatability	0.3%~0.7%
Wetted Material	Borosilicate+PTFE/PCTFE

► SY-09 Vertical Syringe Pump

Vertical syringe pump, 3mL/8mL dual capacity, compact structure.

Applications: Dual-capacity compact vertical syringe pump for space-constrained instrumentation.

Key Specifications

Parameter	Specification
Capacity	3mL/8mL
Stroke	18/19.2mm
Speed	600/300rpm

Accuracy	≤1%
Power	DC24V/3A
Weight	0.45~0.49kg

► SY-09S Vertical Syringe Pump (PTFE)

SY-09 PTFE version for highly corrosive media.

Applications: PTFE wetted materials for highly corrosive media applications.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

06 Plunger Pump (1 Models)

► Rp-01 Plunger Pump

Plunger pump, 6mL capacity, 20mm piston bore, for medium flow delivery.

Applications: Medium flow delivery for industrial fluid transfer and chemical dosing.

Key Specifications

Parameter	Specification
Capacity	6mL
Stroke	19.1mm (3820 steps)
Piston Bore	20mm
Linear Speed	0.017~8.33mm/s
Accuracy	≤1%
Wetted Material	PC+Ceramic+UPE
Power	DC24V/1.5A

07 Reciprocating Syringe Pump (1 Models)

► Rpm-01 Reciprocating Syringe Pump

Continuous reciprocating syringe pump, no tubing consumables, 1/2/3mL options.

Applications: Continuous no-consumable liquid delivery replacing peristaltic pumps for bioprocessing, FIA, and precision circulation.

Key Specifications

Parameter	Specification
Capacity	1mL/2mL/3mL
Max Speed	180 rpm
Max Flow	180/360/540 mL/min
Accuracy	±1%
Repeatability	0.3%~0.7%
Pressure	0.3MPa
Piston Life	3M cycles
Wetted Material	Borosilicate+PTFE
Communication	RS485/RS232/CAN
Weight	0.8kg

08 Syringe (Sample Injector) (2 Models)

► K30 Analytical Syringe (30mm)

Gas-tight sample injector, 30mm stroke, 25 μ L-5mL, for use with syringe pumps.

Applications: Gas-tight syringe for precision micro-volume injection in analytical instruments.

Key Specifications

Parameter	Specification
Capacity	25 μ L~5mL
Connection	1/4-28UNF
Wetted Material	Borosilicate+PTFE
Max Pressure	0.68MPa

► K60 Analytical Syringe (60mm)

Gas-tight sample injector, 60mm stroke, 50 μ L-50mL, for large volume injection.

Applications: Large-volume gas-tight syringe for preparative applications.

Key Specifications

Parameter	Specification
Capacity	50 μ L~50mL
Connection	1/4-28UNF
Wetted Material	Borosilicate+PTFE

09 Peristaltic Pump (19 Models)

► LM40A Compact Control Peristaltic Pump

Compact control peristaltic pump, 0.1-400rpm, max 1295mL/min.

Applications: General-purpose laboratory and light industrial fluid transfer.

Key Specifications

Parameter	Specification
Speed	0.1~400rpm
Accuracy	± 0.1 rpm
Flow Rate	≤ 1295 mL/min
Power	DC24V/35W
Communication	RS485
Weight	~1.64kg

► LM40B Compact Small-flow Peristaltic Pump

Small-flow compact peristaltic pump, max 236mL/min.

Applications: Precision low-flow applications in analytical and laboratory settings.

Key Specifications

Parameter	Specification
-----------	---------------

Speed	≤400rpm
Accuracy	±0.1rpm
Flow Rate	≤236 mL/min
Power	DC24V/20W
Weight	~0.9kg

► LM60A Smart Filling Peristaltic Pump

Smart filling peristaltic pump with continuous/timed/metering/calibration modes.

Applications: Smart filling applications with multiple operating modes for pharmaceutical and biotech.

Key Specifications

Parameter	Specification
Speed	0.1~400rpm
Accuracy	±0.1rpm
Power	DC24V/35W
Communication	RS232/RS485
Weight	~3.5kg

► LM60B Smart Small-flow Filling Peristaltic Pump

Small-flow smart filling peristaltic pump with encoder control.

Applications: Precision small-flow filling with encoder-based control.

Key Specifications

Parameter	Specification
Speed	0.1~500rpm
Power	DC24V/20W
Communication	RS232/RS485
Weight	~1.45kg

► LM80C Large-flow Smart Peristaltic Pump

Large-flow smart peristaltic pump, 1-500rpm, with back-suction angle.

Applications: Industrial-scale large flow transfer with dual pump head capability.

Key Specifications

Parameter	Specification
Speed	1~500rpm
Power	DC48V/144W
Communication	RS232/RS485
Weight	~13kg

► TS600 Industrial Heavy-duty Peristaltic Pump

TS600 Industrial Heavy-duty Peristaltic Pump - Peristaltic Pump. For detailed specifications, please contact Jiuyuhub sales engineers.

Applications: Heavy-duty industrial large flow applications with quick-release tube system.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► BJ30 57 Stepper Motor Peristaltic Pump Series

BJ30 57 Stepper Motor Peristaltic Pump Series - Peristaltic Pump. For detailed specifications, please contact Jiuyuhub sales engineers.

Applications: High-torque large flow industrial peristaltic pumping applications.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► BJ-RZ1030 42 Stepper Motor Mini Peristaltic Pump Series

42 stepper motor mini peristaltic pump series, compact.

Applications: Compact low-flow pumping for portable and embedded applications.

Key Specifications

Parameter	Specification
Motor	42 Stepper
Speed	≤400rpm
Flow Rate	12.5~170 mL/min
Tube ID	0.64~3.0mm
Power	DC24V
Weight	~425g
Size	57×57×63.5mm

► BJ-RZ01B 42 Stepper Peristaltic Pump (RZ01B Head)

BJ-RZ01B 42 Stepper Peristaltic Pump (RZ01B Head) - Peristaltic Pump. For detailed specifications, please contact Jiuyuhub sales engineers.

Applications: Compact peristaltic pump for OEM integration and portable instruments.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► RZ-02 42 Stepper Peristaltic Pump

RZ-02 42 Stepper Peristaltic Pump - Peristaltic Pump. For detailed specifications, please contact Jiuyuhub sales engineers.

Applications: Compact peristaltic pump module for embedded applications.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► ZL12/24-RZ1030-4 DC Motor Peristaltic Pump

ZL12/24-RZ1030-4 DC Motor Peristaltic Pump - Peristaltic Pump. For detailed specifications, please contact Jiuyuhub sales engineers.

Applications: Battery-powered or mobile peristaltic pumping applications.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► ZL-FG-16 DC Motor Peristaltic Pump

ZL-FG-16 DC Motor Peristaltic Pump - Peristaltic Pump. For detailed specifications, please contact Jiuyuhub sales engineers.

Applications: DC motor driven peristaltic pump for simple flow applications.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► ZL(WS/YS)-RZ01B DC Motor Peristaltic Pump

ZL(WS/YS)-RZ01B DC Motor Peristaltic Pump - Peristaltic Pump. For detailed specifications, please contact Jiuyuhub sales engineers.

Applications: DC motor peristaltic pump for cost-sensitive applications.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► RZ1030-4 Peristaltic Pump Head

Peristaltic pump head, 4 rollers, for 0.64-3.0mm ID tubes, ABS+POM.

Applications: Standard 4-roller pump head for small-bore peristaltic tubing.

Key Specifications

Parameter	Specification
Rollers	4
Tube ID	0.64~3.0mm (wall 0.8~1.0mm)
Material	ABS+POM

► SN15/SN25 Peristaltic Pump Head Series

SN15/SN25 Peristaltic Pump Head Series - Peristaltic Pump. For detailed specifications, please contact Jiuyuhub sales engineers.

Applications: Standard peristaltic pump heads for 14#-25# tubing sizes.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► FG-16 Peristaltic Pump Head Series

FG-16 Peristaltic Pump Head Series - Peristaltic Pump. For detailed specifications, please contact Jiuyuhub sales engineers.

Applications: General-purpose standard peristaltic pump head.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► YZ1515X/YZ2515X Peristaltic Pump Head Series

YZ1515X/YZ2515X Peristaltic Pump Head Series - Peristaltic Pump. For detailed specifications, please contact Jiuyuhub sales engineers.

Applications: X-type peristaltic pump heads with 3/6 roller options, flow range 68-1627mL/min.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► **YZ1515S/YZ2515S Peristaltic Pump Head Series**

YZ1515S/YZ2515S Peristaltic Pump Head Series - Peristaltic Pump. For detailed specifications, please contact Jiuyuhub sales engineers.

Applications: S-type peristaltic pump heads with 3/6 roller options.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► **RZ35-3H-U Large-flow Peristaltic Pump Head**

RZ35-3H-U Large-flow Peristaltic Pump Head - Peristaltic Pump. For detailed specifications, please contact Jiuyuhub sales engineers.

Applications: Large flow peristaltic pump head for industrial-scale applications.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

10 Fittings / Connectors (44 Models)

► **PEEK Inverted Cone Fitting (3-piece)**

PEEK Inverted Cone Fitting (3-piece) - Fittings / Connectors. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► **PEEK Inverted Cone Fitting (2-piece)**

PEEK Inverted Cone Fitting (2-piece) - Fittings / Connectors. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► **PEEK Flanged Fitting (Flat-bottom Hard Tube)**

PEEK Flanged Fitting (Flat-bottom Hard Tube) - Fittings / Connectors. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► **PEEK One-piece Finger-tight Fitting**

PEEK One-piece Finger-tight Fitting - Fittings / Connectors. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► **PEEK Finger-tight Fitting (2-piece)**

PEEK Finger-tight Fitting (2-piece) - Fittings / Connectors. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► PEEK Color-coded Fitting

PEEK Color-coded Fitting - Fittings / Connectors. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► PEEK Female Thread Straight Union

PEEK Female Thread Straight Union - Fittings / Connectors. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► PEEK Female Thread L-Elbow

PEEK Female Thread L-Elbow - Fittings / Connectors. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► PEEK Female Thread Y-Tee

PEEK Female Thread Y-Tee - Fittings / Connectors. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► PEEK Female Thread T-Tee

PEEK Female Thread T-Tee - Fittings / Connectors. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► PEEK Female Thread Cross

PEEK Female Thread Cross - Fittings / Connectors. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► PEEK Female Thread Connector

PEEK Female Thread Connector - Fittings / Connectors. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► PEEK Bulkhead Fitting (3-piece)

PEEK Bulkhead Fitting (3-piece) - Fittings / Connectors. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► PEEK Luer Adapter

PEEK Luer Adapter - Fittings / Connectors. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► PEEK Adapter Fitting

PEEK Adapter Fitting - Fittings / Connectors. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► Pre-load Inverted Cone Fitting (2-piece)

Pre-load Inverted Cone Fitting (2-piece) - Fittings / Connectors. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► Anti-twist Tube Inverted Cone Fitting (2-piece)

Anti-twist Tube Inverted Cone Fitting (2-piece) - Fittings / Connectors. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► Inverted Cone Fitting (2-piece)

Inverted Cone Fitting (2-piece) - Fittings / Connectors. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► Flanged Fitting

Flanged Fitting - Fittings / Connectors. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► Inverted Cone Fitting (3-piece)

Inverted Cone Fitting (3-piece) - Fittings / Connectors. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► **Anti-rotation Bulkhead Fitting (3-piece)**

Anti-rotation Bulkhead Fitting (3-piece) - Fittings / Connectors. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► **Bulkhead Fitting (2-piece)**

Bulkhead Fitting (2-piece) - Fittings / Connectors. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► **Female Thread Multi-port Connector**

Female Thread Multi-port Connector - Fittings / Connectors. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► **Double Male Thread Straight Union**

Double Male Thread Straight Union - Fittings / Connectors. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► **Inverted Cone Plug**

Inverted Cone Plug - Fittings / Connectors. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► **Soft-to-hard Tube Adapter**

Soft-to-hard Tube Adapter - Fittings / Connectors. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► **Anti-twist Tube Connector**

Anti-twist Tube Connector - Fittings / Connectors. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► Male Thread Straight Connector

Male Thread Straight Connector - Fittings / Connectors. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► L-type Male Thread Elbow

L-type Male Thread Elbow - Fittings / Connectors. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► Tube Check Valve

Tube Check Valve - Fittings / Connectors. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► Straight Connector

Straight Connector - Fittings / Connectors. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► L-type Elbow Connector

L-type Elbow Connector - Fittings / Connectors. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► T/Y-type Tube Tee Connector

T/Y-type Tube Tee Connector - Fittings / Connectors. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► Cross Connector

Cross Connector - Fittings / Connectors. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► Tube Bulkhead Connector

Tube Bulkhead Connector - Fittings / Connectors. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► L-type Tube Bulkhead Connector

L-type Tube Bulkhead Connector - Fittings / Connectors. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► Countersunk Plug

Countersunk Plug - Fittings / Connectors. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► Luer Connector

Luer Connector - Fittings / Connectors. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► SMC Series Quick-connect Fitting

SMC Series Quick-connect Fitting - Fittings / Connectors. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► NS212 Series Quick-connect Fitting

NS212 Series Quick-connect Fitting - Fittings / Connectors. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► APC Quick-connect Fitting

APC Quick-connect Fitting - Fittings / Connectors. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► PMC Series Quick-connect Fitting

PMC Series Quick-connect Fitting - Fittings / Connectors. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► PLC Series Quick-connect Fitting

PLC Series Quick-connect Fitting - Fittings / Connectors. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► Quick-connect Fitting for Hard Tube Series

Quick-connect Fitting for Hard Tube Series - Fittings / Connectors. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

11 Accessories (16 Models)

► Torque Tool & Hand-tightening Tool

Torque Tool & Hand-tightening Tool - Accessories. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► Tube Cutter

Tube Cutter - Accessories. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► Flat Washer

Flat Washer - Accessories. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► Peristaltic Pump Head Tubing

Peristaltic Pump Head Tubing - Accessories. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► Hose Clamp

Hose Clamp - Accessories. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► **USB-30 Serial Converter**

USB-30 Serial Converter - Accessories. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► **3-way Solenoid Valve**

3-way Solenoid Valve - Accessories. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► **Analog Signal External Control Module**

Analog Signal External Control Module - Accessories. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► **DB15-RS485 Communication Cable**

DB15-RS485 Communication Cable - Accessories. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► **LW-10 Surge Protector**

LW-10 Surge Protector - Accessories. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► **RS232-TTL-10 Level Converter**

RS232-TTL-10 Level Converter - Accessories. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► **Power Adapter Kit (2-piece)**

Power Adapter Kit (2-piece) - Accessories. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► **Isolated RS485 Repeater**

Isolated RS485 Repeater - Accessories. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► Flow Path Pressure Test Kit

Flow Path Pressure Test Kit - Accessories. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► DB15 Solder-free Gold-plated Female Header (5A)

DB15 Solder-free Gold-plated Female Header (5A) - Accessories. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► Syringe Pump Ceramic Valve Head Wrench

Syringe Pump Ceramic Valve Head Wrench - Accessories. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

12 Tubing / Piping (7 Models)

► Rubber Tubing

Rubber Tubing - Tubing / Piping. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► PTFE-lined Rubber Tubing (Plasticizer-free)

PTFE-lined Rubber Tubing (Plasticizer-free) - Tubing / Piping. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► FKM/Fluororubber Tubing

FKM/Fluororubber Tubing - Tubing / Piping. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► Silicone Tubing

Silicone Tubing - Tubing / Piping. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► PVC Tubing

PVC Tubing - Tubing / Piping. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► PEEK Capillary Tubing

PEEK Capillary Tubing - Tubing / Piping. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

► PTFE/FEP Rigid Tubing

PTFE/FEP Rigid Tubing - Tubing / Piping. For detailed specifications, please contact Jiuyuhub sales engineers.

※ For detailed specifications, please contact Jiuyuhub sales engineers.

Part 4: Service & Commitment

Company Profile

Nanjing Jiuyuhub Environmental Technology Co., Ltd. is a technology company specializing in international trade and localization services for industrial environmental instruments, headquartered in Jiangbei New District, Nanjing. The company focuses on water quality analysis, precision fluid control, and flow/process measurement, providing global customers with one-stop solutions.

Core Values

Application-First Matching

Recommend the most suitable products based on actual working conditions, with professional selection consulting and system configuration.

Southeast Asia Adaptation

Fully understand the special conditions of Southeast Asia with optimized product configuration and protection solutions.

One-Stop Supply

Covering water quality testing, fluid control, and flow measurement, including reagents, tubing, and accessories.

24-Hour Response

Quick response to customer inquiries and technical needs, with remote diagnostics and video guidance for after-sales support.
